TABADUL TRADING FACTSHEET

H1 2025

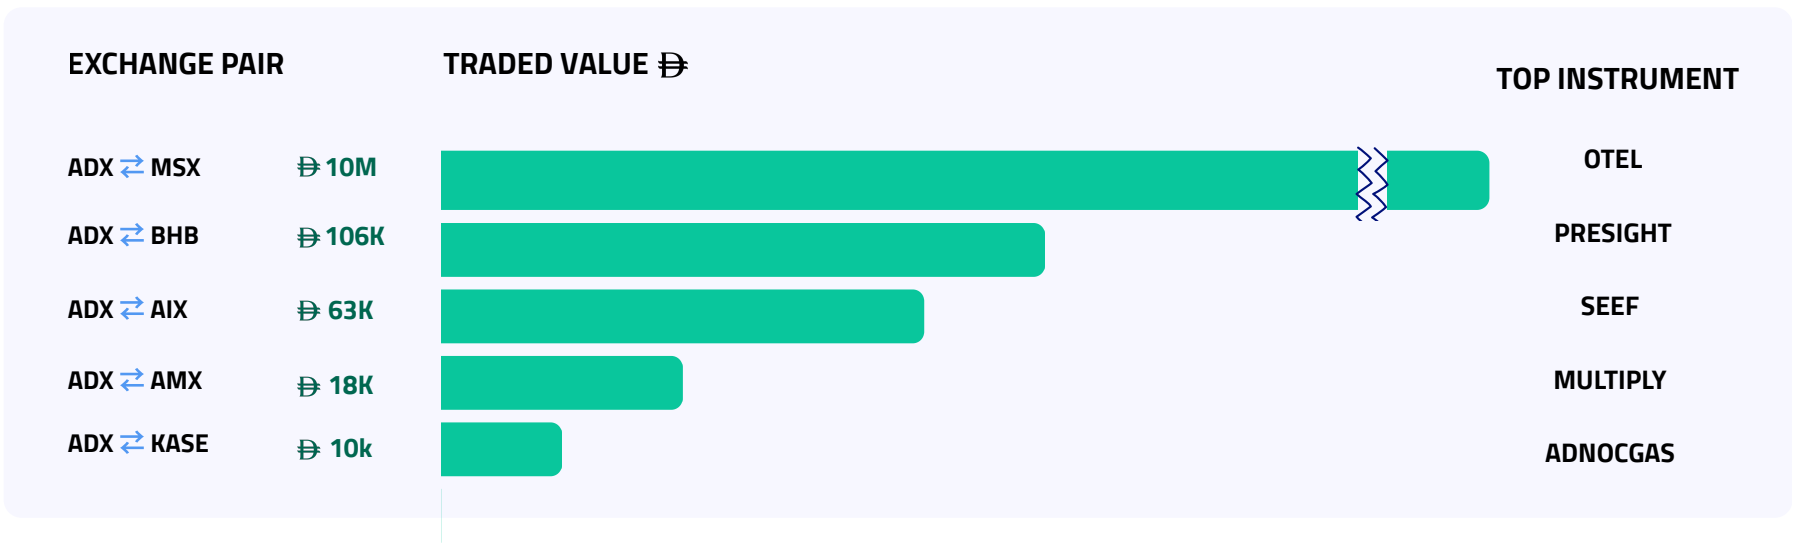

TRADING ACTIVITY HIGHLIGHTS

The first half of 2025 demonstrated robust performance across all key trading indicators. Compared with H2 2024, traded value increased 33x to AED 10.29 million, while traded volume rose 14x to 3.47 million shares.
This growth was supported by the addition of new exchanges, an expanding base of trading members, and heightened participation from market makers, and signifying stronger investor engagement.
The total number of trades increased 5x, which indicates a broader participation, and Tabadul's continued expansion across the region.

CROSS-BORDER TRADING SUMMARY

H1 2025 trading was led by the ADX–MSX pair, driving over AED 10M in value, the clear growth engine. Other exchanges, including BHB, AIX, AMX, and KASE, also contributed, underscoring expanding regional participation and network strength.
